## Reflection

During my Internship I learned to value the time as well you know what you are doing into tasks that given to you be responsible when it comes to collecting or inputting data on Hubspot crm its hard to mapping the fields the help of Youtube Tutorial we learned how to follow the work taks. Then as a social media content creator for Mother Tony Shopee I learned to be uniquely, time management, how you attract or caught the attention of customer with your works.

The challenges that I face first in the Hubspot crm learned how to clean the data you input before you going to mapping fields because once the First letter not in Capital case its invalid, then in social media content was experience the revision of the content works and the graphics.

This internship made me realized interesting in Marketing Strategy because I learned a lot from the FHE.
